OVERVIEW

Brian McCurtis is an SME in Fiscal and eInvoicing compliance with practical experience managing the implementation of SAP Document Compliance (DRC) and other compliance solutions for Fortune 500 companies.

Brian has a management consulting background via Deloitte Consulting and KPMG and spent 10 years leading Enterprise Systems with Apple.

CORE COMPETENCIES

1) Taxation and eInvoicing Compliance SME
2) SAP Document Reporting Compliance (DRC)
3) SAP Advanced Compliance Reporting (ACR)

- **Taxation and eInvoicing Compliance SME**
  - Technical SME with experience in global taxation and eInvoicing compliance with knowledge of tax laws, regulations, and reporting requirements in various countries, including LATAM, EMEIA, and APAC
  - Strong track record in collaborating with cross-functional teams, local tax authorities, and SAP support to address country-specific compliance challenges, ensuring the successful implementation of SAP DRC and seamless adaptation to ever-evolving tax regulations.

- **SAP Document Reporting Compliance (DRC)**
  - Led detailed DRC configuration and customization design to comply with Brazil's Nota Fiscal Eletrônica (NF-e) requirements, Mexico's CFDI (Comprobante Fiscal Digital por Internet) eInvoicing standards, and China's Golden Tax System (GTS) requirements.
  - Drove DRC implementation to meet Turkey's eInvoicing and eLedger requirements, Taiwan's eGUI (Electronic Government Uniform Invoice) system, and Italy's Sistema di Interscambio (SdI) and FatturaPA eInvoicing mandates, navigating complex legislation and enhancing the efficiency of tax reporting processes for local clients.

- **SAP Advanced Compliance Reporting (DRC)**
  - Managed localization and customization of SAP DRC to comply with Brazil's SPED (Public System of Digital Bookkeeping) requirements, Mexico's DIOT (Declaración Informativa de Operaciones con Terceros) reporting, and China's Golden Tax System (GTS) requirements.
  - Demonstrated expertise in adapting SAP DRC to meet Turkey's eInvoicing and eLedger requirements, Taiwan's eGUI (Electronic Government Uniform Invoice) system, and Italy's Esterometro and VAT reporting obligations, navigating complex legislation and enhancing the efficiency of tax reporting processes for local clients.
  - Skilled in aligning SAP DRC with various regional tax and reporting requirements, ensuring seamless integration with existing systems and full regulatory compliance DRCoss multiple countries.

ABOUT MDMXO

We are a consulting and services firm hyper-focused on partnering with enterprise organizations considering or actively engaged in migration from on- prem to Amazon Web Services (AWS) of SAP HANA, S/4 HANA, BW/HANA, and other SAP solutions.

Whether it be re-hosting (lift and shift), re-platforming, or refactoring your SAP workloads, MDMXO is your partner!
